natural habitats. 9780520234017: Lizards: Windows to the Evolution of ...It is believed that lizards have been on Earth for more than 200 million years. Yet there are so many unanswered questions about them. The evolution process is believed to have helped them to branch out, to diversify, and to have the ability to continue to thrive in a variety of different habitats. The size of the species of lizards that we are familiar with today vary in size. Lizard Evolution - BioExpedition This book, lavishly illustrated with color photographs, is the first comprehensive reference on lizards around the world.
