*Applications of Feminist Legal Theory to Women's Lives* Oxford University Press on Demand  
The first comprehensive book on rape since Susan Brownmiller's *Against Our Will* and Susan Estrich's *Real Rape*, this volume probes every aspect of rape law and the discrepancies between ideal law (on the books) and real law (in action). Susan Caringella canvasses the success and failure of reform in the United States, as well as Australia, Britain, Canada, and New Zealand, and assesses alternative perspectives on rape reform, making use of theoretical models, court cases and statistical data. She uniquely delineates a creative model for change while addressing the discretion that undermines efforts at change. This includes charging the accused and plea bargaining, confronting a lack of transparency and accountability in implementing law, and acquiring funding for such changes.

More than 150 alphabetically arranged entries on topics, thinkers, religions, movements, and concepts locate sexuality in its humanistic and social contexts.

*Ethics and Sex* Routledge

The papers collected here present a critical analysis of popular debates about victimization. The authors argue that we must move beyond polarized positions to examine the "victim" as a socially constructed term and to explore, in nuanced terms, why we see victims the way we do. Must one have been subjected to extreme or prolonged suffering to merit designation as a victim? How are we to explain rape victims who seemingly "get over" their experience with no lingering emotional scars? The papers simultaneously critique exaggerated claims by victim advocates about the harm of victimization, while taking on the reactionary boilerplate of writers such as Katie Roiphe and Camille Paglia, and offering further strategies for countering the backlash.

*Sex, Morality, and the Law* Springer

Sexual violence has become a topic of intense media scrutiny, thanks to the bravery of survivors coming forward to tell their stories. But, unfortunately, mainstream public spheres too often echo reports in a way that inhibits proper understanding of its causes, placing too much emphasis on individual responsibility or blaming minority cultures. In this powerful and original book, Linda Martín Alcoff aims to correct the misleading language of public debate about rape and sexual violence by showing how complex our experiences of sexual violation can be. Although it is survivors who have galvanized movements like #MeToo, when their words enter the public arena they can be manipulated or interpreted in a way that damages their effectiveness. Rather than assuming that all experiences of sexual violence are universal, we need to be more sensitive to the local and personal contexts – who is speaking and in what circumstances – that affect how activists' and survivors' protests will be received and understood. Alcoff has written a book that will revolutionize the way we think about rape, finally putting the survivor center stage.

*The Fire This Time* Belmont, Calif. ; Toronto : Wadsworth

Thirty contemporary essays that explore philosophically, conceptually, and theologically the nature, social meanings, and morality of contemporary sexual phenomena. From publisher description.

*Intimate Betrayal* John Wiley & Sons

This edited collection asks how key New Zealand judgments might read if they were written by a feminist judge. Feminist judging is an emerging critical legal approach that works within the confines of common law legal method to challenge the myth of judicial neutrality and illustrate how the personal experiences and perspectives of judges may influence the reasoning and outcome of their decisions. Uniquely, this book includes a set of cases employing an approach based on mana wahine, the use of Maori values that recognise the complex realities of Maori women's lives. Through these feminist and mana wahine judgments, it opens possibilities of more inclusive judicial decision making for the future. 'This Project stops us in our tracks and asks us: how could things have been different? At key moments in our legal history, what difference would it have made if feminist judges had been at the tiller? By doing so, it raises a host of important questions. What does it take to be a feminist judge? Would we want our judges to be feminists and if so why? Is there a uniquely female perspective to judging?' Professor Claudia Geiringer, Faculty of Law, Victoria University of Wellington 'With this book, some of our leading jurists expose the biases and power structures that underpin legal rules and the interpretation of them. Some also give voice to mana wahine perspectives on and about the law that have become invisible over time, perpetuating the impacts of colonialism and patriarchy combined on Maori women. I hope this book will be a catalyst for our nation to better understand and then seek to ameliorate these impacts.' Dr Claire Charters, Associate Professor, Faculty of Law, University of Auckland 'The work is highly illuminating and is critical to the development of our legal system ... It is crucial, not only for legal education, so that students of the law open their minds to the different ways legal problems can be conceptualised and decided. It is also crucial if we are going to have a truly just legal system where all the different voices and perspectives are fairly heard.' Professor Mark Henaghan, Dean of the Faculty of Law, University of Otago 'I believe this project is particularly important, as few academics or researchers in New Zealand concentrate on judicial method. I am therefore hopeful that it will provoke thoughtful debate in a critical area for society.' The Honourable Justice Helen Winkelmann, New Zealand Court of Appeal

*Date Rape* Anchor

This book considers how human rights law can help define what could and should be done to protect children from sexual maltreatment. The volume explores diverse forms of sexual maltreatment, compares societal responses to existing research and policies, uncovers basic themes, and proposes directions for future action. Roger Levesque places particular emphasis on the ways abusive activities in different countries and societies are linked with one another and the way diverse societal views of children place them at risk.

*A Most Detestable Crime* Springer

In the award-winning *Just Sex? The Cultural Scaffolding of Rape*, Nicola Gavey provides an extensive commentary on the existing literature on rape, analysing recent research to examine the psychological and cultural conditions of possibility for contemporary sexual violence. *Just Sex?* argues that feminist theory on sexual victimization has gone both too far and not far enough. It presents the reader with a challenging and original perspective on the issues of rape, sex and the body, incorporating new material on sexism, misogyny and digital culture, as well as debates over gendered analyses of sexual violence. The second edition has been updated and expanded to be extremely timely and relevant, with the most recent high-profile rape cases – the Stanford rape case and the Belfast rape case – being tried in the media and online. The rise of the Hollywood Harvey Weinstein scandal and the #MeToo movement makes this book incredibly useful and necessary to those who are working within the area of sexual violence. This will appeal to academic readers studying psychology, sociology, and criminology, as well as those looking into cultural influences on society. It will also be very useful to those working in the professional sector on prevention and with people who have been subjected to sexual violence.

*Sex, Sensibility and the Gendered Body* Oxford University Press on Demand

The issue of sexual consent has stimulated much debate in the last decade. The contributors to this illuminating volume make sense of sexual consent from various conceptual standpoints: socio-legal, post-structural, philosophical and feminist. The volume comprises a range of studies, all based around consent within a specific context such as criminal justice, homosexuality, sadomasochism, prostitution, male rape, learning disabilities, sexual ethics, and the age of consent. It is the first collection to publish exclusively on issues of sexual consent, and both makes sense of sexual consent in contemporary society and guides debate towards better consent standards and decisions in the future. *Making Sense of Sexual Consent* will excite considerable discussion amongst academics, professionals and all those who think that freedom to make decisions about our sexual selves is important. It will set the agenda for debate on sexual consent into the 21st Century.

**Childhood and Sexuality** Columbia University Press

The papers collected here present a critical analysis of popular debates about victimization. The authors argue that we must move beyond polarized positions to examine the "victim" as a socially constructed term and to explore, in nuanced terms, why we see victims the way we do. Must one have been subjected to extreme or prolonged suffering to merit designation as a victim? How are we to explain rape victims who seemingly "get over" their experience with no lingering emotional scars? The papers simultaneously critique exaggerated claims by victim advocates about the harm of victimization, while taking on the reactionary boilerplate of writers such as Katie Roiphe and Camille Paglia, and offering further strategies for countering the backlash.

*The Problem of Pornography* Greenwood Publishing Group

This book explores how children engage with sex and sexuality. Building on a conceptual and legal grounding in sexuality studies and the new sociology of childhood, the authors debate the age of consent, teenage pregnancy, sexual diversity, sexualisation, sex education and sexual literacy, paedophilia, and sex in the digital age. Whilst Moore and Reynolds recognise the necessity of child protection and safeguarding in the context of risk, danger and harm, they also argue that where these stifle children's sexual knowledge, understanding, expression and experience, they contribute

to a climate of fear, ignorance and bad experiences or harms. What is necessary is to balance safeguarding with enabling, and encourage judicious understandings that advance from a rigid developmental model to one that recognises pleasure and excitement in children's nascent sexual lives. Exploring that balance through their chosen issues, they seek to encourage changed thinking in professional, personal and academic contexts, and speculate that children might teach adults something about the way they think about sex. *Childhood and Sexuality* will be of interest to students, scholars and professionals across a range of subjects and disciplines including sociology, social work, criminology, and youth studies.

*Feminist Philosophy* Cambridge University Press

The topic of sexual harassment is a real threat to society in spite of its downplaying by a large segment of society including the 42nd President of the United States. This book presents analyses designed to help shed light on it and a bibliography sorted for ease of use.

*Campus Wars* Nova Publishers

Acquaintance rape is a serious social problem, yet it remains widely misunderstood by the general public and by practitioners working with both survivors and perpetrators. The concept 'rape' is generally thought of in terms of rape by a stranger; acquaintance rape survivors are more likely to be blamed for the assault than stranger rape survivors. This seriously impacts upon what survivors do after the assault, on the services survivors receive, on the prosecution of perpetrators and on efforts to prevent the problem. *Intimate Betrayal* provides much-needed information on the subject - including practical information directed specifically at practitioners working with survivors - with sensitive discussions that include

**Dead End Feminism** Indiana University Press

This volume in the acclaimed feminist companion to the bible series, edited by Athalya Brenner, draws together a range of leading biblical commentators to discuss one of the most challenging and fascinating biblical texts for feminist interpretation, the book of Genesis.

**Just Sex?** Rowman & Littlefield

A new collection of essays highlighting the wide range of Buber's thought, career, and activism. Best known for *I and Thou*, which laid out his distinction between dialogic and monologic relations, Martin Buber (1878–1965) was also an anthologist, translator, and author of some seven hundred books and papers. *Martin Buber: Creaturely Life and Social Form*, edited by Sarah Scott, is a collection of nine essays that explore his thought and career. *Martin Buber: Creaturely Life and Social Form* shakes up the legend of Buber by decentering the importance of the I-Thou dialogue in order to highlight Buber as a thinker preoccupied by the image of relationship as a guide to spiritual, social, and political change. The result is a different Buber than has hitherto been portrayed, one that is characterized primarily by aesthetics and politics rather than by epistemology or theology. *Martin Buber: Creaturely Life and Social Form* will serve as a guide to the entirety of Buber's thinking, career, and activism, placing his work in context and showing both the evolution of his thought and the extent to which he remained driven by a persistent set of concerns.

**Philosophising Experiences and Vision of the Female Body, Mind, and Soul: Historical Context and Contemporary Theory** SAGE

This first-ever study of rape in modern American drama examines portrayals of rape, raped women

and rapists in 36 plays written between 1970 and 2007, the period during which the feminist movement made rape a matter of public discourse. These dramas reveal much about sexuality and masculine and feminine identity in the United States. The author traces the impact of second-wave feminism, antifeminist backlash, third-wave feminism and postfeminism on the dramatic depiction of rape. The prevalence of commonly accepted rape myths--that women who dress provocatively invite sexual assault, for example--is well documented, along with equally frequent examples which dispute these myths.

*A Feminist Companion to Genesis* Penn State Press

With 7 new essays, the 8th edition of this best-selling text examines the nature, morality, and significance of contemporary sexual phenomena. Topics include love; desire; rape; masturbation; sex online; homosexual, asexual, queer, and transgender issues; polyamory; paraphilia; drugs and sex; objectification; BDSM; and sex and race.

*Rape, Rage and Feminism in Contemporary American Drama* Routledge

The study of sexuality is moving from margin to centre stage in sociology, as the 1994 British Sociological Association annual conference on 'Sexualities in Social Context' demonstrated. Drawn from that conference, the papers in this volume contribute to the debates which have developed on the relationship between the sexual and the social, and between gender and sexuality. The focus is on women, and from different perspectives the authors explore the themes of gendered identity, the construction of sexuality, embodiment and control. The social contexts in which these themes are elaborated include the family, the law, the education system, medical practice and discourse, and cultural representations and texts.

*Feminism and Criminology* Bloomsbury Publishing

Rape is one of the oldest crimes, yet in some ways it is the least understood. Criminal law classifies rape as a crime against the person along with murder, robbery, and battery. But in at least one respect rape is unique--with few exceptions its perpetrators are male and its victims are female. The gendered nature of rape raises questions of equality and fairness as well as about the scope of individual rights to autonomy, privacy, security, and bodily integrity. Rape is therefore an important

subject for political and social philosophy as well as for ethics, feminist philosophy, and the philosophy of law. This collection of original essays by leading philosophers investigates the philosophical dimensions of rape in all of its manifestations: act, crime, practice, and institution. The essays examine such issues as the nature of rape; the wrongfulness and harmfulness of rape; the relation of rape to racism, sexism, classism, and other forms of oppression; and the legitimacy of various rape-law doctrines (such as the corroboration requirement, the marital-rape exemption, and the reasonable-belief defense). Each contributor advances a novel argument and seeks to disentangle the conceptual, evaluative, and empirical issues that arise in connection with the crime. Editor Keith Burgess-Jackson provides a substantive introduction, a history of rape law, two extensive bibliographies, and a detailed index to round out this major addition to a much-needed philosophical discussion of rape. *A Most Detestable Crime* is among the first philosophical anthologies devoted exclusively to the subject of rape--as complex and interesting intellectually as it is pervasive and disturbing socially. It is an essential reference work not only for legal and feminist philosophers, but for feminist scholars and practitioners in every field, including law, medicine, social work, and counseling. This volume will also be of interest to social, political, and legal theorists of every ideological and methodological persuasion.

*Addressing Rape Reform in Law and Practice* Greenwood Publishing Group

Throughout its history, the United States has struggled with the inevitable tensions of a highly diverse society. With the opening of higher education to women, ethnic minorities, and members of other previously marginalized groups, these tensions are now visited most especially upon our nation's colleges and universities. This collection addresses the most controversial issues now troubling our campuses: the content of the curriculum, sexual harassment and date rape, hate speech v. free speech, and affirmative action. In addition, several contributions probe the fundamental issues underlying the more specific problems of the "politics of difference." The contributions to this volume represent a wide range of disciplines - including philosophy, history, literary theory, law, economics, and politics - as well as views from across the political spectrum. Readers will find both familiar essays and new ones, arranged so that the authors speak directly to one another, thus providing a genuine conversation.
