Advanced Financial Accounting (NEP Karnataka) McGraw-Hill Education

Advanced Financial Accounting provides a comprehensive treatment of current financial reporting in the UK and is the leading textbook for second and third year courses in universities and also for advanced examinations of the professional accounting bodies. This new edition has been fully revised for developments in UK accounting over the last three years, including the issue of all new reporting standards up to and including FRS 15 together with financial reporting exposure drafts and discussion papers issued by the ASB. This edition is a major revision and now contains greater coverage standards issued by the International Accounting Standard Committee and includes discussion of controversial topics such as: the development of ASB draft statement of principles, and Accounting for deferred taxation Business Combinations. Chapters have been edited to reduce material of purely historical interest in order to allow greater coverage of the current regulatory framework and relevant controversies.

The Tenth Edition of *Advanced Financial Accounting* is an up-to-date, comprehensive, and highly illustrated presentation of the accounting and reporting principles and procedures used in a variety of business entities. This edition continues to provide strong coverage of advanced accounting topics, with clarity of presentation and integrated coverage based on continuous case examples. The text is highly illustrated with complete presentations of worksheets, schedules, and financial statements so that students can see the development of each topic. Inclusion of all recent FASB and GASB pronouncements and the continuing deliberations of the authoritative bodies provide a current and contemporary text for students preparing for the CPA Examination and current practice. This has become especially important given the recent rapid pace of the authoritative bodies in dealing with major issues having far-

reaching The book's building block approach introduces concepts with simple examples and then gradually introduces complexity, allowing students to easily keep pace with the material. The key strengths of this text are the clear and readable discussions of concepts and the detailed demonstrations of concepts through illustrations and explanations. The many favorable responses to prior editions from both students and instructors confirm our belief that clear presentation and comprehensive illustrations are essential to learning the sophisticated topics in an advanced accounting course.

The Sixth Edition of ADVANCED

FINANCIAL ACCOUNTING, by Baker/Lembke/King continues its strong coverage of the topics, its well-known clarity of presentation, and its integrated coverage based on continuous case examples. The text is highly illustrated with complete presentations of worksheets, schedules, and financial statements so that students can see the development of each new topic. In the chapters covering consolidation subsequent to the date of combination, the three alternative methods of the parent company's accounting for the investment --basic equity, cost, and fully adjusted equity-- are presented in each chapter and appendices to provide the opportunity to cover the differences in the methods, and to see how the consolidated financial statements are the same regardless of the method the parent company uses to account for the investment. The two international chapters include a comprehensive discussion of accounting for foreign currency derivatives and other forms of derivatives such as interest swaps and options used in today's business arena. The governmental and not-for-profit chapters are comprehensive in their coverages of accounting and financial reporting for these entities, based on the most current GASB pronouncements. The text can be described as: (a) very comprehensive in coverage of advanced accounting topics, (b) extensively illustrated with worksheets and other learning tools, (c) clearly written for students' learning, (d) a very large variety of end-of-chapter materials for homework selections, and (e) current and complete in its coverage of accounting and reporting standards from the FASB and the GASB. Because

Advanced Financial Accounting is often taken by students who plan to take the CPA exam, numerous end-of-chapter materials are provided in the formats as tested on the CPA exam. A wide variety of multiple-choice questions, cases requiring written presentations, and other objective answer format materials is provided.
